Introduction

Course Discover is a source of information about courses, institutions and related issues available in one place, to help students to make informed decisions about their future. It is tailored to meet the specific information needs of students coming to the UK for first degree and other courses. Students can use the Course Discover database to search with the following criteria:

- subject
- locations
- course level
- tariff points
- study method

To Begin a Search

Simply use the menu on the left to enter your choice of subject, location, course level, tariff points and study method by clicking on each ‘Add’ button. Once you’ve entered your search criteria, just click the ‘Search’ button.

To Display Results/Records

The web pages resulting from your selection are automatically displayed after each step in the search process.

To Print Searching Results

Searching results can be printed by using the print function on your browser if a local printer is connected.

On-line Help

On-line Help is available from the database by clicking the “Assistance” button at the top of the page.
